Marine Insurance Course 2009

On 11-15 May, the ninth consecutive Marine Insurance Course was held at the Club's head office in Göteborg.

The course provides basic knowledge about the Marine Insurance business. All the presentations and workshops are held by in-house staff, all experts in their respective fields.

This year's participants, 30 people from 10 different countries, with

different areas of competence, representing companies from various parts of the marine insurance business, all contributed to the successful outcome of the course by way of challenging questions, in-depth discussions and, not least, adding to the overall positive atmosphere throughout the week.

We wish to thank all involved in this event and are pleased to announce that the tenth course will take place on 3-7 May 2010. Further information about this will be posted on our website in due course.

The citywalk on Monday evening started off with drinks on top of the city in Utkiken...

Focus on Underwriting in the workshop led by Rune Bågenholm.

...continued with at starter in the vaults of the Eastindia house...

Niclas Holmberg, Fairwater Marine, receiving his certificate from the hands of Lars A. Malm.

... and ended up at Restaurant Soho for the main course.

Thursday evening was spent on the picturesque island of Vargö.
