

The 2007 class gathered outside The Swedish Club office.

7th MARINE INSURANCE COURSE

Göteborg, May 7th – 11th 2007

A case study being discussed.

■ ■ The five-day Marine Insurance Course 2007 was held for the seventh time at the Club's head office. Thirty-two people participated, representing members, brokers, correspondents and reinsurance companies from twelve different countries.

As usual, Club employees gave presentations that covered all important aspects of marine insurance, ranging from terms and

conditions to the practical handling of claims and loss prevention. The course focused on the most common types of insurance such as Hull & Machinery, Protection & Indemnity and Freight Demurrage & Defence.

Several types of workshop in the form of case studies were used as examples of what can go wrong and what can be done to prevent the recurrence of claims.

Next year's Marine Insurance Course at the head office will be held May 5th-9th 2008. Further information about the course and an online application will shortly be available on the Loss Prevention section of our website, www.swedishclub.com

The participants are given the opportunity to solve a wide range of problems during the workshops.
