## COVID 19, Update

*The following information was received from our correspondent on 04 March 2022:*

### QUOTE

As of 01/03/2022 foreign seamen are allowed to enter Israel if they are vaccinated or not, as long as they take 2 PCR tests (1 PCR test prior departure to Israel and 1 PCR test upon arrival to Israel). Please be advised that each airline dictates alternative timing to take the PCR test, hence one needs to contact their Airline and ask for their policy as to the timing of the test before departure.

In addition each seaman have to fill out an entry statement form (<https://corona.health.gov.il/en/flights/>) in the 48 hours before the flight or arrival at an Israeli border crossing, and as early as possible.

Having said and for the sake of good order we suggest that members will consult with the ship's local agent prior concluding any crew changes to verify that the agent is aware of the above.
