What is Adopt a Ship?

Adopt a Ship is a project based educational program that aims to educate & inform students about the shipping industry.

Builds awareness about the Seafarers’ life at Sea and influences young people to seek careers in the Shipping Industry at Shore and at Sea.

Increases empathy for the seafarer.

Learn about the importance of shipping in everyday life as well as its significant role in the historical, economic and cultural development of nations.

Interdisciplinary approach of the program. Real world learning experience

A ship is assigned to a school classroom (4th, 5th or 6th grades)
Direct email communication with the vessel, captain & crew thus learning about daily duties and activities, cargo carried, trading pattern, routes, loading and unloading at ports.

Bridging opportunities to young professionals in-the-making
Dear Captain and crew MT AEGEAN DREAM,

During these difficult times for the whole world, we especially think about you.

We are at home, working with our teachers on our computers, trying to do our best and trying to avoid contacts and remain safe and sound. We miss school and we would prefer to be in our actual classroom with our friends.

At home we try to stay confident and positive to get through this lockdown. In the morning we must do our homework and during our free time we play games with our brothers and sisters and friends (online) or watch TV, or listen to music, or watch movies or even do something more creative. It is almost a month now that the school closed down and that we stay at home.

The Students and the Teacher of 6A, Psychico College
Kantza, 09/04/2020, Greetings from our “digital class”!

To: Aegean Dream

Dear Captain and crew MT AEGEAN DREAM,

We are students of the 5th Grade of the 5th Primary School in Piraeus (45 students totally). In our school, which is an all day Primary School in Piraeus, in Attiki, in Greece, lessons last from 8:15 until 16:00. There are 6 grades with 2 classes for each one, 23 teachers and 260 pupils totally. The teachers in charge of the programme are Mrs Despoina Nikolakoudi and Mrs Fotini Papadopoulou.

Dear Students,

First of all, I am so very grateful to have received your message informing me that our good vessel has been chosen and that we were entered into an educational program called “Adopt a Ship” by the Ministry of Education. I will disseminate this message to our good crew members in order for them to know that we have the good young students of the 5th Grade in Piraeus who are adopting our good vessel and would like to communicate with us, and will sell us in through continuous small exchanges.

We are at home, working with our teachers on our computers, trying to do our best and trying to avoid contacts and remain safe and sound.

We miss school and we would prefer to be in our actual classroom with our friends.

At present, we are here in Long An, Vietnam discharging cargo, MOP - Muriate of Potash (Fertilizer) in bulk that we have brought from Eilat, Israel. This port of Long An, is our second discharging port here in Nam. The first port was Quy Nhon, about one (1) day and a half voyage distance from both ports.

We are 16 crew members on board with nationality namely, 12 Filipinos including myself, 04 Ukrainians, and this makes us all a total of 16 crew.

Dear Students & Mr.Bokola,

Good day to all of you from MT Aegean Dream and her Crew,

First of all I have to thank you all for your good words and thoughts. I know and I can understand how difficult are these days for you and your families. Never again in the modern history our word face such a pandemic.

WE HAVE TO BE PATIENT, WE HAVE TO STAY HOME, WE HAVE TO STAY SAFE!

For us here it is very difficult now more than ever because in this horrible pandemic we are not with our families.

We all hope that this situation will stop in the next days. The ports that we are going don’t accept the embarkation and disembarkation of the seamen as a precautionary measure for covid-19, for the new coming crew but also for the crew that like to disembark.

The main reason is that we have to pass from 2 or 3 airports before we arrive in our country and this as you can understand is much increasing the possibilities of infection.

At present, we are here in Long An, Vietnam discharging cargo, MOP - Muriate of Potash (Fertilizer) in bulk that we have brought from Eilat, Israel.

We are 16 crew members on board with nationality namely, 12 Filipinos including myself, 04 Ukrainians, and this makes us all a total of 16 crew.

On board M/V BRAZEN, we had been at sea for about 25 days and sometimes less, it depends with our port(s) of employment or destination.

Dear Captain & crew MT BRAZEN,

First of all, we are wondering what your position at the moment is and what your next destination is going to be…

How many are the members of your crew and what nationality are they?

How long do your voyages last and how often do you see your families?

How many are the members of your crew and what nationality are they?

Here in Greece we’ve been facing pretty bad weather conditions lately. What’s the weather like there?

Oh, I am very sorry to hear that the weather in Greece was pretty bad lately. Was it raining and windy? My beloved wife Greece and I was in your good country in July 2017, and we went to Acropolis, Monastiraki Park, Panathenaic Stadium and all of city of Athens. We were there for about one week and the weather there was always sunny. We did not at all feel so tired.

We are 16 crew members on board with nationality namely, 12 Filipinos including myself, 04 Ukrainians, and this makes us all a total of 16 crew.

Dear Mr. Bokola & all your crew,

It is very difficult for us not to feel homesick and not to feel homesick we are not happy in our own home.

At home we try to stay confident and positive to get through this lockdown. We are at home, working with our teachers on our computers, trying to do our best and trying to avoid contacts and remain safe and sound. We miss school and we would prefer to be in our actual classroom with our friends.
