How the module can help you

Clarity

The module has been carefully designed to be process-based, providing a clear overview of progression and highlighting outstanding issues.

Certainty

At a glance, the SCOL Charterer's Online Declarations module shows the user what is declared, what has been accepted by the Club, and what items are currently in risk. Past declarations are easily accessible through an archive function.

Notifications

No need for manual reminders, SCOL Charterer's Online Declarations will automatically notify you and request key information as the process moves forwards.

Access to SCOL claims data

As part of SCOL, when using the Charterer's Online Declarations module, anything you need to know about past or present claims is just the click of a mouse away.

User guide

Nothing is taken for granted – an easily accessible and comprehensive user guide tells you all you need to know about the process.

Everything you need in one place

Declarations

You can find everything you need to know about your declarations, on one screen. With minimal navigation, filters help you to easily find your vessel.

Documents

Via the module you can easily access automatically created insurance documentation. This can be used alongside the relevant claims documents, accessed through SCOL. The outputs can be viewed, downloaded, or attached to emails.
